ACKNOWLEDGEMENT AND ASSUMPTION OF RISKS RELATED TO BUR TOKENS

22. Purchaser understand that BUR Tokens, blockchain technology, Ethereum, Ether and other associated and related technologies are new and untested and outside of BBS's exclusive control and adverse changes in market forces or the technology, broadly construed, may prevent or compromise BBS's performance under this Agreement.
23. Purchaser agree that no other party (including, without limitation any) may be held liable for any loss arising out of, or in any way connected with Purchaser's participation in the BUR Tokens-sale, or receiving and holding Tokens or such risk.
24. Purchaser also acknowledge that prior to receiving BUR Tokens he have been warned of the following risks, associated with the Website, the BBS Tokens, the Platform and other relevant technologies mentioned herein:

1. Legal risks regarding securities regulations

There is a risk that in some jurisdictions the BUR Tokens might be considered to be a security, or that it might be considered to be a security in the future. BBS does not give warranties or guarantees that BUR Tokens are not a security in all jurisdictions. Each holder of BUR Tokens shall bear its own legal or financial consequences of BUR Tokens being considered a security in their respective jurisdiction.

Every Purchaser is bound to check if acquisition and disposal of BUR Tokens is legal in his jurisdiction, and by accepting this Agreement, each Purchaser undertakes not to use BUR Tokens should their use not be legal in the relevant jurisdiction. If Purchaser establishes that the use of BUR Tokens under this Agreement is not legal in his jurisdiction, You should not use the BUR Tokens, not acquire them and should immediately stop using or possessing them if such case arises.

Acquiring cryptographic Tokens for personal possession and exchanging them for other cryptographic Tokens will most likely continue to be scrutinized by various regulatory bodies around the world, which has so far given mixed reactions and regulatory impact. The legal ability of BBS to provide BUR Tokens and the Platform

in some jurisdictions may be eliminated by future regulation or legal actions. In the event, it turns out with a high degree certainty that BUR Tokens are not legal in certain jurisdiction, BUR will either:

- a) cease operations in that jurisdiction, or
- b) adjust BUR Tokens and the Platform in a way to comply with the regulation should that be possible and viable.

2. Risks associated with Ethereum

BUR Tokens are based on Ethereum blockchain. As such, any malfunction, unintended function or unexpected functioning of the Ethereum protocol may cause the BUR Tokens to malfunction or function in an unexpected or unintended manner. Ether, the native unit of account of the Ethereum may itself lose value in ways similar to BUR Tokens, and also other ways. More information about the Ethereum is available at <http://www.ethereum.org>.

3. Risk of unfavorable regulatory action in one or more jurisdictions

Blockchain technologies have been the subject of scrutiny by various regulatory bodies around the world. The functioning of the Ethereum network and associated blockchain networks and BUR Tokens could be impacted by one or more regulatory inquiries or actions, including but not limited to restrictions on the use or possession of digital Tokens like BUR Tokens, which could impede or limit their existence, permissibility of their use and possession, and their value.

4. Risk of theft and hacking

Hackers or other groups or organizations may attempt to interfere with Your Third-party Wallet, the Website or the availability of BUR Tokens and Digital Assets in any number of ways, including without limitation denial of service attacks, Sybil attacks, spoofing, smurfing, malware attacks, or consensus-based attacks. You hereby agree that BBS shall have no liability for any such loss the Purchaser incur.

5. Risk of security weaknesses in the Website and/or BUR Tokens source code or any associated software and/or infrastructure

There is a risk that the Website and BUR Tokens may unintentionally include weaknesses or bugs in the source code interfering with the use of or causing the loss of BUR Tokens.

6. Risk of weaknesses or exploitable breakthroughs in the field of cryptography

Advances in cryptography, or technical advances such as the development of quantum computers, could present risks to cryptocurrencies, Ethereum, BUR Tokens, the Platform, which could result in the theft or loss of BUR Tokens.

7. Risk of mining attacks

As with other decentralized cryptocurrencies, Ethereum blockchain, which is used for the BUR Tokens, is susceptible to mining attacks, including but not limited to double-spend attacks, majority mining power attacks, "selfish-mining" attacks, and race condition attacks. Any successful attacks present a risk to the BUR Tokens,

expected proper execution and sequencing of BUR Tokens, and expected proper execution and sequencing of Ethereum contract computations in general. Despite the efforts of BBS and Ethereum Foundation, the risk of known or novel mining attacks exists. Mining Attacks, as described above, may also target other blockchain networks, with which the BBS Tokens interact with and consequently the BBS Tokens may be impacted in that way to the extent, described above.

8. Risk of loss of value

Value of BUR Tokens may fluctuate and their Purchasers might suffer loss in value of such acquired tokens. There might be different reasons that would cause unfavorable fluctuations of the value of the BUR Tokens.

9. Risk of uninsured losses

BUR Tokens are unlike bank accounts or accounts at some other financial institutions and are entirely uninsured.

10. Risk of malfunction in the Ethereum network or any other blockchain

It is possible that the Ethereum network or any other network, to which the BUR Tokens are interacting with, malfunctions in an unfavorable way, including but not limited to one that result in the loss of BUR Tokens

11. Internet transmission risks

Purchaser acknowledge that there are risks associated with using the BUR Tokens including, but not limited to, the failure of hardware, software, and Internet connections. Purchaser acknowledge that BBS shall not be responsible for any communication failures, disruptions, errors, distortions or delays You may experience when using the Website and BUR Tokens, howsoever caused.

12. Unanticipated risks

Cryptocurrencies and blockchains are new and untested technology. In addition to the risks set forth here, there are risks that BBS cannot foresee and it is unreasonable to believe that such risks could have been foreseeable. Risks may further materialize as unanticipated.

13. Insufficient interest in BBS, the Platform and BUR Tokens

It is possible that BBS, BUR Tokens or Platform will not be used by a large number of individuals, businesses and other organizations and that there will be limited public interest in the creation and development of its functionalities. Such a lack of interest could impact the development of the Platform and usage of BUR Tokens on it.

14. BUR Tokens and the Platform, as developed, may not meet the Purchaser's expectations

The Platform is currently under development and may undergo significant changes before release. The Purchaser's expectations regarding the form and functionality of the Platform and BUR Tokens may not be met upon release of new Website, deployment of the Platform, additional products and services for any number of

reasons, including a change in the design and implementation plans and execution of the implementation of BUR Tokens
